

Terminal Service plus XP/2003 SBS vs. Windows Terminal Server and Citrix

If you're looking for an easy, plug-and-play solution to Web-enable or publish your applications, then the logical choice is Terminal Service plus XP/2003 SBS. By eliminating the complexities of Citrix XenApp (previously called Citrix Presentation Server or MetaFrame) and Microsoft Windows Terminal Server (WTS), TSplusForXP provides a fast, simple and affordable solution.
